

WASH & WEAR INSTRUCTIONS

Proper Wear

Wash your hands. Fit the mask to your face and under chin. Pinch the bendable portion to fit snugly around the bridge of nose. Avoid touching (your) face and mask.

Wash Hands

Wash hands often throughout the process of disinfecting your used mask, especially prior to removal of mask.

Sanitize

In a deep bowl soak mask in hot tap water and a disinfecting detergent or solution of white vinegar and detergent.

Launder

Wash in hot water with a disinfecting detergent and a small amount of bleach or white vinegar. Tumble dry low or medium heat only, or air dry.

Our masks are made to be reusable and washable. Masks MUST be worn and washed properly to be effective.
